## CURRENT EXPERIENCE

Software Developer	Aug 2023 - Present
--------------------	--------------------

### Delta IT Networks Pvt. Ltd.

- Led and developed responsive, high-performance web applications, collaborating with designers and front-end teams.
- Built and maintained RESTful APIs and server-side logic using Node.js, Express, PHP (Laravel), and MySQL.
- Designed efficient database schemas, optimized queries, and ensured smooth front-end integration.
- Developed cross-platform UIs with HTML, CSS, Bootstrap, Tailwind CSS, React.js, and Redux Toolkit.
- Managed VPS deployments, version control via Git/GitHub, and API testing using Postman.
- Strong grasp of web architecture, responsive design, and secure authentication mechanisms.

## EDUCATION

Year	Education	Institute	%
2020-22	Masters in Computer Applications	Gurugram University	72.23%
2017-20	Bachelors in Computer Applications	DronaCharya Govt College	71.04%
2016-17	12th Grade (CBSE)	Sheetla Vidya Peeth Sr Sec School	75.04%
2014-15	10th Grade (CBSE)	H.M Seniors Secondary School	77.25%

## Technical Skills

- **Frontend Development:** HTML, CSS, JavaScript, React JS, Bootstrap, Tailwind CSS, Redux Toolkit.
- **Backend Development:** Node.js, Express.js, PHP, Laravel, Electron.js
- **Database Management:** MongoDB, MySQL
- **Tools and Platform:** Git, GitHub, Postman
- **Additional Skill:** Ubuntu CLI, Docker, VPS Server.

## PROJECTS

### Food Delivery Website:

- Developed a full-stack food delivery platform with role-based dashboards for Customers, Delivery Partners, Restaurants, and Admins.
- Integrated secure online payment processing using the Razorpay API.
- Implemented real-time order tracking using Socket.io and Google Maps API for live delivery updates.
- Designed a responsive and modern UI with Tailwind CSS, ensuring an optimal experience across all devices.
- Used JWT authentication for secure login/signup and role-based access control to protect user data.

### Blinkit Clone:

- Developed a dynamic Blinkit Clone platform using the MERN stack, replicating real-time grocery delivery functionalities.
- Implemented secure user authentication with login and registration using JWT and bcryptjs.
- Designed a responsive and intuitive UI ensuring seamless user experience across devices.
- Utilized MongoDB for efficient data handling and scalable query performance.
- Integrated a secure payment gateway for seamless online transactions.
- Built an **admin panel** for managing orders, products, and categories efficiently.

### School Management System:

- Developed a dynamic School management System platform using the MERN stack (MongoDB, Express.js, React, Node.js) with multiple roles having teacher, student and school owner
- Implemented role based authentication and authorization using jwt, allowing user access specific features
- Utilized express js and node js to handle api request, ensuring for fast and scalable server side operations.
- Designed Responsive UI: Built a user-friendly, responsive interface.
- MongoDB for efficient, scalable Queries Strength

## CERTIFICATION

---

**Full Stack Web Development** – Udemy (*April 25, 2023*)

## OTHER INTEREST

---

- Keep on acquiring knowledge of new programming languages, frameworks, and development tools.
- Enthusiastic about building side projects to enhance technical expertise.
- Active learner, staying updated with latest trends in web development and software engineering.
